ART UNIT 2622

Reasons for Allowance

Claims 1-19 are allowed.

This is examiner's statement of reasons for allowance.

The instant invention recites a method for positioning a scanning starting point of an image scanning apparatus, wherein the image scanning apparatus comprises a platen having an orthogonal X-Y coordinate system and for a document to be scanned being placed thereon, and a carriage disposed in the image scanning apparatus and moving along a Y direction for capturing an image of the document to be scanned, the orthogonal X-Y coordinate system having an X-axis being defined by a wide margin of the platen and a Y-axis being defined by a first long margin of the platen, the method comprising the following steps:

(a) choosing one of a plurality of marks inside the image scanning apparatus as a reference point, wherein the chosen mark is located nearest to the image of the document to be scanned;

(b) obtaining a vector from an image starting point of the document to be scanned to the reference point;

(c) moving the carriage to the reference point; and

(d) moving the carriage from the reference point to the image starting point according to the vector, and proceeding to scan.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Art Unit: 2622

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
